Articles

The following journal articles are available from the Library and Knowledge Service electronically or in print. Please follow links to access full text online, contact me to order copies, or call into your nearest library.

A Systematic Review and Meta-analysis Comparing the Efficacy of Nonsteroidal Anti-inflammatory Drugs, Opioids, and Paracetamol in the Treatment of Acute Renal Colic.
[NSAIDs were equivalent to opioids or paracetamol in the relief of acute renal colic pain at 30min. There was less vomiting and fewer requirements for rescue analgesia with NSAIDs compared with opioids. Patients treated with NSAIDs required less rescue analgesia compared with paracetamol [...] the findings [...] suggest that NSAIDs should be the preferred analgesic option for patients presenting to the emergency department with renal colic.]

Axitinib, cabozantinib, everolimus, nivolumab, sunitinib and best supportive care in previously treated renal cell carcinoma: a systematic review and economic evaluation.
[Cabozantinib is likely to be the best treatment to delay tumour growth and prolong life, followed by nivolumab, but all treatments delayed disease progression and prolonged survival compared with best supportive care.]
Freely available online

Ischaemic stroke, haemorrhage, and mortality in older patients with chronic kidney disease newly started on anticoagulation for atrial fibrillation: a population based study from UK primary care.
Kumar S. BMJ 2018;360:k342.
[To assess the association between anticoagulation, ischaemic stroke, gastrointestinal and cerebral haemorrhage, and all cause mortality in older people with atrial fibrillation and chronic kidney disease.]

Guidelines
The following new guidance has recently been published:

**Lenvatinib with everolimus for previously treated advanced renal cell carcinoma.**
National Institute for Health and Care Excellence (NICE); 2018.
https://www.nice.org.uk/guidance/ta498

[Evidence-based recommendations on lenvatinib (Kisplyx) with everolimus for previously treated advanced renal cell carcinoma in adults.]
